My Concerns

- No fire Department - will CN pay for one to be built on the other side of Barry
- Who pays for it coming thru the town. I don't want my tax dollar to go to it
- Can the Home Owners come to CN for Reimbursement for any damage the heavier the line the more vibration. Can these Old homes handle the vibration. These homes are close to the track 2 blocks away can feel it if it is a heavy line
- Chemicals - How often will it be on the train
- EPA Concerns - Cuba Marsh
- Length of the train on impact of getting thru the town  
Change the timing of the lights
- If this is going to go thru please consider a fire/Police Dept.
- School bus and start time please consider a time when school is going on to have the trains run.
- Please No graffiti on your train. Kids should not have to see it.
